BELL PEPPER - EM BELLA 733

EM Bella 733 produces very large sized (10 cm x 11 cm.), dark green bell peppers, blocky-oblong in shape, 3 - 4 lobed with thick walls. Fruit mature to a scarlet red. EM Bella 733 is widely adapted, medium early maturing yet it is high yielding due to a prolonged production period. Plants are relatively compact and vigorous growing and produce a heavy canopy which protects EM Bella 733 from sun scald.
